Zaman, R., 43, 51

Subject Index

Abscesses (tuberculous)
  psoas, acute abdominal complications of, 309
  splenic, in AIDS, 307
Adenosine deaminase
  in tuberculosis and bacterial meningitis, cerebrospinal fluid levels of, 190
  in tuberculous peritonitis, diagnostic value of ascites gamma interferon levels compared with activity of, 193
AIDS
  pancreatitis and, tuberculous, 73
  relapse of tuberculosis in, despite 12 months antituberculous therapy and continuation of isoniazid, 149
  rifabutin/clofazimine/isoniazid/ethambutol combination treatment of opportunistic mycobacterial infection in, 168
  splenic abscesses in, tuberculous, 307
Airborne tuberculosis, guinea pig model of experimental, for evaluation of response to chemotherapy, 223
Algeria, pulmonary tuberculosis in, short-course chemotherapy under routine programme conditions, 88
Antibiotic sensitivity testing of *M. avium-intracellulare* using paraffin slide cultures, modified broth dilution assay for, 198
Antigens, mycobacterial/BCG
  immune reactivity in healthy hospital contacts in S. India to, 133
  processing and presentation of, implications for improved vaccine development of, 250
Antituberculous therapy, *see* Chemotherapy
Asian immigrants to Canada (British Columbia), tuberculosis in, 277
AT–4140 (sparfloxacin) activity against *M. tuberculosis*, in vivo and in vitro, 181
Avian tuberculosis, wildfowl susceptibility to, genetic and environmental factors, 105

BCG antigens, *see* Antigens
BCG vaccination
  cancer and, 304
  positive Mantoux reaction in children with, significance, 101
Birds, tuberculosis in, genetic and environmental factors affecting susceptibility to, 105
Bronchial aspirate culture at fibreoptic bronchoscopy, 71
Bronchoscopy, fibreoptic
  bronchial aspirate culture at, 71
  diagnostic role in presence of typical X-ray pictures and adequate sputum, 145
Brunei Darussalem, prevalence of tuberculosis in, 255

Canada (British Columbia), tuberculosis in Asian immigrants to, 277
Cancer and BCG vaccination, 304
Cerebrospinal fluid, adenosine deaminase levels in, in tuberculosis and bacterial meningitis, 190
Cervical spine, bifacetal dislocation following tuberculosis of, 294
Chemotherapy (antituberculosis therapy), *see also* Drugs and specific agents compliance with, *see* Compliance
  guinea pig model of experimental airborne tuberculosis for evaluation of response to, 223
  jaundice during, 72
  poor patient compliance, in Malaysia, 261
  preventive, psychological disturbances during, 232
  in pulmonary tuberculosis in Algeria, short-course, under routine programme conditions, 88
  relapse of tuberculosis in AIDS despite 12 months of, and continuation of isoniazid, 149
Children
  positive Mantoux reaction in BCG-vaccinated, significance, 101
  sensitivity to sensitins and tuberculin in Swedish, 29, 37, 187
Clofazimine, rifabutin/isoniazid/ethambutol in combination with, in treatment of opportunistic mycobacterial infection in AIDS, 168
Coagulopathy, disseminated intravascular, associated with rifampicin, 291

Compliance (with antituberculosis therapy)
non-, in intracranial tuberculoma therapy, 299
poor, in Malaysia, 261
Control of tuberculosis, new WHO strategy, 1
Cranium, tuberculoma within, diagnostic dilemma and therapeutic non-compliance in case of, 299
Cytokines and the Koch phenomenon, 13

Delayed type hypersensitivity, *see* Hypersensitivity
Dispensary, tuberculosis, running one in a developing country (Turkey), 268
Disseminated intravascular coagulopathy associated with rifampicin, 291
Drug resistance in Saudi Arabia, 51, *see also* Chemotherapy *and specific drugs*

Environmental factors affecting wildfowl susceptibility to avian tuberculosis, 105
Ethambutol, isoniazid/rifabutin/clofazimine combined with, in treatment of opportunistic mycobacterial infection in AIDS, 168

Faeces, decontamination for isolation of *M. tuberculosis*, comparison of three methods for, 214
Fibreoptic bronchoscopy, *see* Bronchoscopy, fibreoptic
Fine needle aspiration, sputum smear-negative forms of pulmonary tuberculosis diagnosed by transthoracic, 210
Fleroxacin, ofloxacin activity against various mycobacteria compared with, in vivo and in vitro, 176
Frozen section diagnosis, tuberculosis causing intestinal obstruction and the role of, 152

Genetic factors affecting wildfowl susceptibility to avian tuberculosis, 105
Guinea pig model of experimental airborne tuberculosis for evaluation of response to chemotherapy, 223

HLA and pulmonary tuberculosis in S. India, association between, 123
Hospital contacts in S. India, immune reactivity to BCG antigens in healthy, 133
Hospital workers, current practices and attitudes of, screening for tuberculosis and, 265
Hypersensitivity, delayed type
immunogenetic view of, 161
Koch phenomenon and, 7

Immune responses, T-cells and the, 253
Immunogenetic view of delayed type hypersensitivity, 161
India
private general practitioners in treatment of tuberculosis in, 284
South
HLA and pulmonary tuberculosis in, association between, 123
hospital contacts in, immune reactivity to BCG antigens in healthy, 133
Indonesia, prevalence of tuberculosis in, 255
Interferon-γ levels, ascites, in tuberculous peritonitis, diagnostic value compared with adenosine deaminase activity, 193
Intestinal obstruction, tuberculosis causing, role of frozen section diagnosis in, 152
Intracranial tuberculoma, diagnostic dilemma and therapeutic non-compliance in case of, 299
Isoniazid
preventive chemotherapy with, psychological disturbances during, 232
relapse of tuberculosis in AIDS despite 12 months antituberculous therapy and continuation of, 149
rifabutin/clofazimine/ethambutol in combination with, in treatment of opportunistic mycobacterial infection in AIDS, 168
sustained release in vivo from implant of biodegradable polymer, 115

Jaundice during chemotherapy, 72

Koch phenomenon
cytokines and the, 13
delayed hypersensitivity and the, 7
possibility of correction, 241

Lebanon, tuberculosis in, 73

Malaysia, poor patient compliance with antituberculosis therapy in, 261
Mantoux reaction in BCG-vaccinated children, positive, significance, 101
Meningiomyeloradiculitis, tuberculous, 65
Meningitis, bacterial cerebrospinal fluid levels of adenosine deaminase in, 190
Murine tuberculosis, efficacy of intermittent pyrazinamide in experimental, 110
Mycobacterium spp.
antigens, *see* Antigens
ofloxacin and fleroxacin activities compared against, 176
ofloxacin and pefloxacin activities compared against, 57
rifabutin/clofazimine/isoniazid/ethambutol in combination treatment of opportunistic infection with, in AIDS, 168
in Saudi Arabia, epidemiology and incidence, 43
Mycobacterium avium, M. intracellulare and, differentiation by phenetic characteristics, 308
Mycobacterium avium-intracellulare, antibiotic sensitivity testing of, modified broth dilution assay using paraffin slide cultures for, 198
Mycobacterium intracellulare, M. avium and, differentiation by phenetic characteristics, 308
Mycobacterium malmoense, pulmonary disease caused by, origin of infection and diagnosis of, 218
Mycobacterium tuberculosis
decontamination of faeces for isolation of, comparison of three methods for, 214
in Saudi Arabia, epidemiology and incidence, 43

sparfloxacin (AT–4140) activity against, in vivo and in vitro, 181
Mycobacterium tuberculosis complex, pyrolysis mass spectrometry in the differentiation of mycobacteria of, 206

Nepal, severe skin reactions to thiacetazone in, 305

Ofloxacin activity against mycobacteria
fleroxacin compared with, 176
pefloxacin compared with, 57
Out-patients, supervised treatment in S. African rural programme, 140

Pancreatitis, tuberculous, AIDS and, 73
Paraffin slide cultures, modified broth dilution assay for antibiotic sensitivity testing of *M. avium-intracellulare* using, 198
Pefloxacin activity against mycobacteria, 57
Peritonitis, tuberculous, ascites gamma interferon levels in, diagnostic value compared with adenosine deaminase activity, 193
Philippines, prevalence of tuberculosis in, 255
Polymer, biodegradable, sustained release of isoniazid in vivo from implant of, 115
Polymerase chain reaction, diagnostic value, 21
Preventive chemotherapy with isoniazid, psychological disturbances during, 232
Private general practitioners in treatment of tuberculosis in India, 284
Psoas abscesses, tuberculous, acute abdominal complications of, 309
Psychological disturbances during preventive chemotherapy with isoniazid, 232
Pulmonary disease caused by *M. malmoense*, origin of infection and diagnosis of, 218
Pulmonary tuberculosis
HLA and, association between, in S. India, 123
short-course chemotherapy in Algeria, under routine programme conditions, 88
sputum smear-negative forms diagnosed by transthoracic fine needle aspiration in, 210
Pyrazinamide in experimental murine tuberculosis, efficacy of intermittent, 110
Pyrolysis mass spectrometry in the differentiation of mycobacteria of *M. tuberculosis* complex, 206

Resistance to drugs in Saudi Arabia, 51
Rifabutin, clofazimine/isoniazid/ethambutol in combination with, in treatment of opportunistic mycobacterial infection in AIDS, 168
Rifampicin
disseminated intravascular coagulopathy associated with, 291
thrombocytopenia induced by, restarting of rifampicin in patients with, 306

Saudi Arabia, tuberculosis in
drug-resistant, 51
epidemiology and incidence of *M. tuberculosis* and other mycobacterial species, 43
Screening for tuberculosis, current practices and attitudes of hospital workers relating to, 265
Sensitins, sensitivity of Swedish children to, 29, 37, 187
Singapore, prevalence of tuberculosis in, 255
Skin
thiacetazone-related reactions, severe, in Nepal, 305
in tuberculin test, changes in, 81
Skull, tuberculoma within, diagnostic dilemma and therapeutic non-compliance in case of, 299
South Africa, supervised out-patient treatment in rural programme, 140
Sparfloxacin (AT–4140) activity against *M. tuberculosis*, in vivo and in vitro, 181
Spine, cervical, bifacetal dislocation following tuberculosis of, 294
Splenic abscesses in AIDS, tuberculous, 307
Sputum, fibreoptic bronchoscopy's diagnostic role in presence of adequate, 145
Sputum smear-negative forms of pulmonary tuberculosis diagnosed by transthoracic fine needle aspiration, 210
Swedish children, sensitivity to sensitins and tuberculin in, 29, 37, 187

T-cell subset, mobilising the appropriate, 253
Thiacetazone, severe skin reactions to, 305
Thrombocytopenia, rifampicin-induced, restarting of rifampicin in patients with, 306
Tuberculins/tuberculin test
sensitivity of Swedish children to, 29, 37, 187
skin changes with, 81
Tuberculoma, intracranial, diagnostic dilemma and therapeutic non-compliance in case of, 299
Turkey, running a tuberculosis dispensary in, 268

Vaccination, BCG, *see* BCG vaccination
Vaccines, improved, processing and presentation of mycobacterial antigens and the implications for development of, 250

WHO, new tuberculosis control strategy of, 1
Wildfowl susceptibility to avian tuberculosis, genetic and environmental factors affecting, 105
World Health Organization, new tuberculosis control strategy of, 1

X-ray pictures, fibreoptic bronchoscopy's diagnostic role in presence of typical, 145
